

ENTERPRISE ARCHITECT

Enterprise Architect for glue's EA Practice. The role will involve many levels of enterprise architecture including development of business, information, functional and technical architectures, as well as architecture planning.

The successful candidate will have proven experience in fulfilling a wide range of enterprise or solution level architecture activities. The individual will have excellent interpersonal and political skills and be able to demonstrate thought leadership in Architecture

RESPONSIBILITIES

- Deliver class leading architecture, thought leadership and quality consulting to glue's clients
- Lead architecture strategy definition, architecture delivery and provide architecture management where necessary
- Up-sell and on-sell within clients
- Development of glue intellectual property
- Pre-sales support as required

REMUNERATION

- Competitive package

EXPERIENCE

- Detailed knowledge of multiple industry sectors
- Development of enterprise-level models and other artefacts
- Preferably experienced in at least one Architecture framework (e.g. TOGAF, Zachman, MODAF, IAF etc.).

- Understanding of interrelations of different architectural frameworks
- Preferably experienced in at least one Enterprise Architecture tool (e.g. System Architect, Troux/Metis, Corporate Modeller, ARIS etc.)
- Involved in the development of technology strategy or programme architecture
- Experience in governance and governing large projects or programmes
- Strong understanding of business and business drivers

ROLE EXPERIENCE

- At least 8 years IT experience, of which at least 3 years must be fulfilling Enterprise Architecture or Solution Architecture roles.
- Experience of mentoring and guiding more junior colleagues
- Experience of leading meetings, workshops, and presentations
- Demonstrable political and commercial awareness
- Preferably having some client-side consulting experience
- A strong development or consulting technical background is preferred (i.e. depth as well as breadth of knowledge)

INDUSTRY EXPERIENCE

- Retail, CPG, Utilities, Public Sector and Financial Services experience desirable

PERSONAL SKILLS & CULTURAL FIT

- Good interpersonal skills, and a willingness to lead and be led
- Ability to professionally deal with difficult, highly political workplace situations, potentially with minimal peer-support
- Good personal organisation, productivity and time management skills
- Enthusiastic, pro-active and flexible attitude to work
- Demonstrable enthusiasm about technology and/or innovation and/or problem solving

EXPOSURE

- Enterprise applications such as SAP, Oracle Apps etc.
- Enterprise architecture modelling (including process modelling) in tools such as System Architect, Metis, Corporate Modeller, ARIS preferred
- Architecture frameworks, such as TOGAF, Zachman, MODAF, IAF etc. preferred

Glue Reply is UK's leading consulting services organisation focused exclusively on optimising IT/Business alignment and minimising the cost of business and IT technology change. Our core proposition is to help organisations maximise the value from their change and technology investments by helping them define, design, implement and resource best practice:

- Enterprise architecture, incorporating the information and data architecture domains
- Data management & data governance
- Business and technology change management processes, roadmaps and competencies
- Business design and process management initiatives
- SOA and integration architecture, methods and platforms
