Glue Reply is UK's leading consulting services organisation focused exclusively on optimising IT/Business alignment and minimising the cost of business and IT technology change. Our core proposition is to help organisations maximise the value from their change and technology investments by helping them define, design, implement and resource best practice:

- Enterprise architecture, incorporating the information and data architecture domains
- Data management & data governance
- Business and technology change management processes, roadmaps and competencies
- Business design and process management initiatives
- SOA and integration architecture, methods and platforms
